Coming Home Safe

"I feel more at ease when my daughter heads out on her scooter to meet friends at night. If anything ever happened, I know she can alert us and that we're never far away. It gives us both real peace of mind."
Monique, 46, Mother

Staying Independent

"I find smartphones difficult to use, but with FamilyCam, I only have to press one button to call the person I want. They can immediately see where I am and help me if needed. It gives me the confidence to continue living independently."
Margaret, 78, Living independently

Running with Confidence

"Going for a run or a walk in the evening used to make me feel uneasy. With FamilyCam, I know that help can see what's happening right away and that my location is always known. It gives me the confidence to enjoy my runs without constantly looking over my shoulder."
Alice, 33

Handfree Guidance when Needed

"With FamilyCam, I move through the city with more confidence. With one press, a person can step in and guide me if something's unclear. It's given me back a sense of independence."
- James, 28, Visually Impaired

Capture Adventures

"With FamilyCam, I love to take videos and photos during my rides hands-free, so I never miss a moment even mid-climb with both hands on the bars. And when something unexpected happens, I can press for direct support."
- Emma, 31

And Much More

"I even use FamilyCam as a dashcam, mounted on my dashboard. It easily records the road ahead, so if something unexpected happens, I have clear footage of exactly what happened."
David, 35, Driver

Specifications
